

AQUARIUM PIPE CLIP

Snap-on Stackable Elevation Base

►► SPECIFICATION

Material:	UPVC
Size:	DN20~DN25
Standard:	DIN
Colour:	Gray

SECURE FASTENING, SIMPLE INSTALLATION

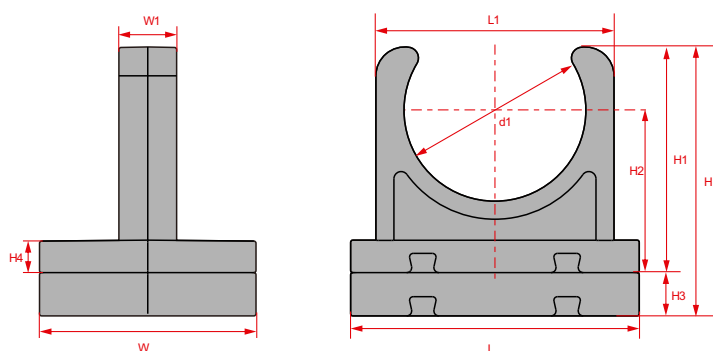

- Features a **U-shaped clamp** to secure pipes tightly, preventing detachment. The specially enlarged base contact area ensures a more stable bond. The added **dovetail grooves** at the bottom allow for **stacking elevation pads**, guaranteeing a firmer and more reliable adhesive connection.

STACKABLE BASE FOR FLEXIBLE ADAPTABILITY

- The pipe clips support **stacking with elevation pads**. The number of layers can be freely adjusted based on specific requirements, ensuring stable and secure fitting for various ball valves and piping installations.

STRICT QUALITY MANAGEMENT SYSTEM

- Strictly compliant with the **ISO 9001:2015** quality management system, we maintain effective control over production to ensure consistent product quality. Aligned with Flowcolour®'s "**FLOW CREATES VALUE**" philosophy, our products offer outstanding cost-effectiveness.
