

MULTICOLOUR PIPE

The Color Is Rich
And The Size Is Accurate

► SPECIFICATION

MATERIAL: UPVC
SIZE: DN15~DN40
STANDARD: DIN
CONNECTION: SPIGOT

Unit: mm

NOMINAL SIZE		OUTSIDE DIA		STRUCTURE SIZE		PRESSURE
DN	DIN	D	Tolerance	T	Tolerance	PN
DN15	20mm	20	±0.3	2.0	±0.2	10
DN20	25mm	25	±0.3	2.0	±0.2	10
DN25	32mm	32	±0.3	2.0	±0.2	10
DN32	40mm	40	±0.3	2.0	±0.2	10
DN40	50mm	50	±0.3	2.4	±0.2	10
DN50	63mm	63	±0.3	2.0	±0.2	10

COLORFUL AND DIVERSE COLOR SCHEMES

- To cover common warm colors, **PANTONE mainstream colors** are used as a benchmark, and after adjustment, they are more aesthetically pleasing to match with white and gray pipe fittings.

ADD UV RESISTANT INGREDIENTS FOR LONGER SERVICE LIFE

- Optimize the formula, the product has a **Vicat value of >62**, and uses high-temperature toner to make the color long-lasting and bright. **The formula specially adds anti UV ingredients to effectively delay the yellowing of the product**, making it still beautiful and charming even when used outdoors.

SUITABLE FOR A VARIETY OF APPLICATION ENVIRONMENTS

- The raw material formula meets **the national water safety certification standards and the EU ROHS environmental standards, ensuring biosafety**. The pipeline strictly follows the **GB/T10002.1-2006 standard**, with a pressure bearing capacity of 10kg, and can be used for multiple purposes.
