

FLOWCOLOUR

Nut

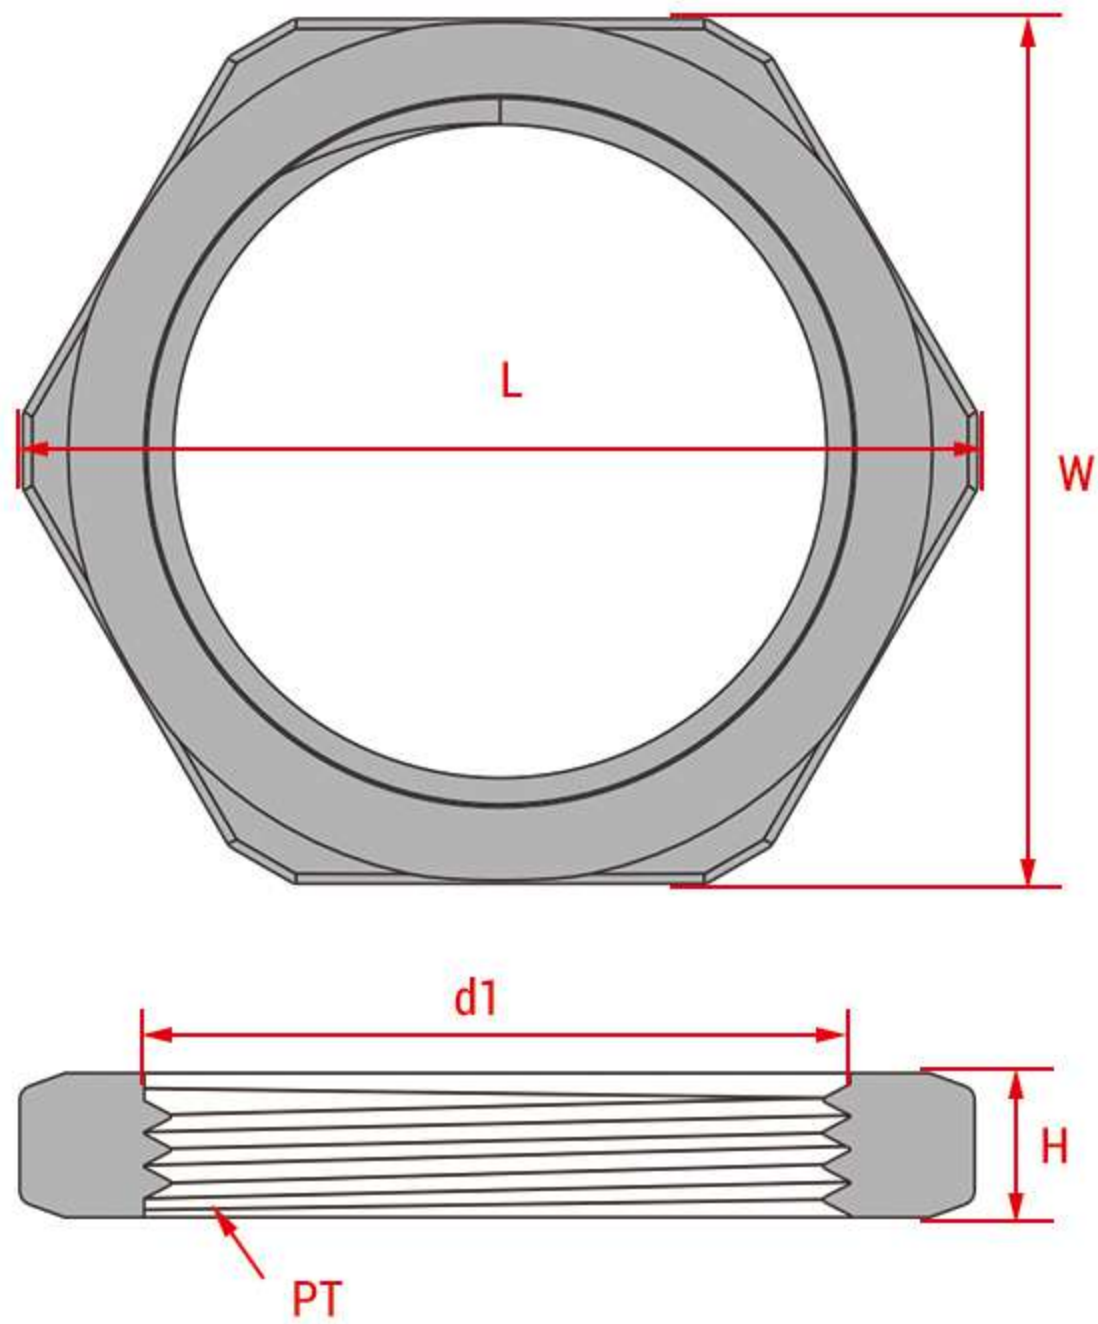

SPECIFICATIONS

Size: 3/4",1-1/2"
Material: PC
Standard: DIN
Connection: Thread

PRODUCT FEATURES

- 1.Manufactured using high-transparency polycarbonate raw material, **it boasts a transparency rate of up to 92%**. The mold is smooth and shiny, resulting in excellent overall transparency.
- 2.The internal thread is a **G thread**, and the tooth gauge is **compatible with ISO7-1 specifications**. The polycarbonate material exhibits excellent toughness, ensuring secure and tight threading.
- 3.The nut is thickened for easy screwing, and the sufficient wall thickness can withstand relatively high tightening forces, making it suitable for a wide range of applications.
