

ELBOW WATER OUTLET CONNECTOR

Triple Thread,
Quick Connect

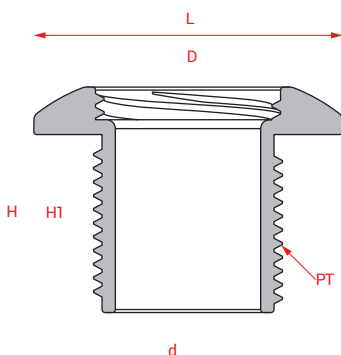

►► SPECIFICATION

MATERIAL: UPVC

SIZE:

STANDARD: DIN

CONNECTION:

L H

QUICK THREADING FOR EASY DISASSEMBLY

- Using a special three headed thread, it can quickly connect to specially made water outlet accessories for easy disassembly and assembly.

WIDE CLAMPING RANGE

- The extended length of the external teeth can be easily used in glass thicknesses of 2-20mm.

NEAT AND BEAUTIFUL APPEARANCE

- The curved flipping design makes the parts inside the fish tank hidden and not abrupt, enhancing the aesthetic of the fish tank's organization.

STRICT QUALITY MANAGEMENT SYSTEM

- Strict adherence to the ISO 9001:2015 quality management system, effectively controlling the production process of the product to ensure consistent quality. Following the Flowcolour® philosophy of "FLOW CREATES VALUE", This enables our products to have excellent cost-effectiveness.
