

WATER LEVEL CONTROL CONNECTOR

Save Space

► SPECIFICATION

Material: UPVC
Size: DN40
Standard: DIN
Connection: THREAD

SIMPLER USER EXPERIENCE

- The water level plug features a **double-thread design** that allows it to be opened or closed by **rotating 90 degrees**, making it easy to operate in confined spaces.

UNIQUE ANTI-DROP DESIGN

- The **specially designed figure-eight sealing ring** forms a flexible connection with the main body, effectively reducing the risk of the water level plug falling out during disassembly in confined spaces.

MORE COMPACT AND SPACE-SAVING

- A more sophisticated structural design **reduces space usage**, facilitates pre-installation, and significantly improves the user experience.

STRICT QUALITY MANAGEMENT SYSTEM

- Adheres strictly to the **ISO 9001:2015** quality management system, ensuring effective control over the production process to maintain consistent product quality. Following the Flowcolour® philosophy of **"FLOW CREATES VALUE"** ensuring excellent cost-effectiveness of the products.
